PROFILE

Software Engineering student at the University of the South Pacific, working towards a career in software or web development. Experience in user acceptance testing, project reporting and stakeholder coordination, with a growing foundation in programming and analytical problem solving.

SKILLS

Programming and web: C++, Java, SQL, HTML and CSS; foundational knowledge under continued development.

Testing and delivery: User acceptance testing, issue identification, project documentation, reporting, stakeholder communication and teamwork.

Tools: Visual Studio Code, Microsoft Office, Excel, Canva and Windows.

EXPERIENCE

Project Intern | Asia Pacific Regulatory Centre APRC

August 2026 - Present

- Prepared project reports, incorporated supervisor feedback and supported stakeholder meetings and communications.
- Supported the Basic Tariff Literacy Toolkit launch through invitations, telephone attendance confirmations and venue arrangements.
- Coordinated with Encore's audiovisual team, created lunch coupons and demonstrated a Learning Management System during the launch.
- Coordinated speakers and registration for the APRC-AFUR Energy Series webinar on 25 August 2026, served as MC and prepared post-webinar reports.
- Used AI tools to assist report structure and proofreading while protecting sensitive organisational information.

Project Intern | Spirit of Endeavour

May 2025 - November 2025

- Assisted with hands-on user acceptance testing and analysed the project's purpose and system.
- Prepared monthly project management and quarterly reports, and supported stakeholder meetings and administrative activities.
- Drafted social media content, shared weekly stakeholder updates through the intranet and supported risk management activities.

EDUCATION AND CERTIFICATIONS

Bachelor of Software Engineering | University of the South Pacific

2024 - Present | Expected graduation 2027

USP certifications: CS111/CS112 C++; CS214 Java.

INTERESTS

Practical applications of artificial intelligence, mobile games and puzzle solving.
